Diagram showing the connection of a 50V RMC cable to a 230V power source. The cable has four conductors: two blue (PE), one red (L), and one black (N). The red conductor is connected to the L terminal of a 230V switch, and the black conductor is connected to the N terminal. The two blue conductors are connected to the PE terminal. The switch is labeled "PŘÍJÍMKA" and "VÝSTUP". The cable is labeled "ODBOČKA DN 50 V RÁMCI DODÁVKY PŘEDZDOL. POTRUBÍ".

## ODKALENÍ, PROPLACH POTRUBÍ-4x
